

**Remarks**

The present application includes claims 1-20. Claims 2, 3, 5-7, 12, 13 and 15-17 have been amended. Claims 1, 4, 8-11, 14 and 18-20 have been canceled.

Claims 2, 3, 5-7, 12, 13 and 15-17 were objected to as being dependent upon a rejected base claim. The Examiner stated that the claims would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. As such, the Applicant has amended claims 2, 3, 5-7, 12, 13, and 15-17 into independent form including all of the limitations of the base claim and any intervening claims.

Claims 2 and 3 were objected to for lacking proper antecedent basis for “said clutch release”. Claims 2 and 3 have been amended so the term reads as “said clutch release mechanism”.

Claims 1, 10, 11 and 20 were rejected under 35 U.S.C. § 103(a) as being unpatentable over text in paragraph 5 of the specification of the present application in view of Siczek et al. (U.S. Pat. No. 4,995,046) and Randolph et al. (U.S. Pat. No. 5,619,763).

In order to expedite prosecution of the present application, claims 1, 10, 11 and 20 have been canceled. The Applicant reserves the right to pursue the subject matter of claims 1, 10, 11 and 20 in a continuation application.

In order to expedite prosecution of the present application, claims 4, 9, 14 and 19 have been canceled. The Applicant reserves the right to pursue the subject matter of claims 4, 9, 14 and 19 in a continuation application.

**Conclusion**

For the reasons discussed above, the Applicant respectfully submits that claims 2, 3, 5-7, 12, 13 and 15-17 should be in condition for allowance.

The Applicant looks forward to working with the Examiner to resolve any remaining issues in the application.
